A report of an actual or suspected violation should be as specific and detailed as possible to allow for proper and complete assessment and remediation. Confidentiality will be maintained to the fullest extent possible, consistent with the need to conduct an adequate review and address any violations.

All complaints will be investigated promptly and with discretion. At the conclusion of an investigation, remedial and/or disciplinary action will be taken as appropriate.

Any supervisory personnel who receive a report must immediately advise the Company's General Counsel by phone or in person, or if not possible or practicable, another member of the Legal Department. Complaints relating to Accounting Matters will be reviewed with Audit Committee direction and oversight by the General Counsel, head of Internal Audit, or such other persons as the Audit Committee determines to be appropriate.

No disciplinary, retaliatory or adverse action of any kind will be taken against any person who in good faith reports an actual or suspected violation of applicable law, regulation, or the Code, regardless of whether such violation is ultimately determined to have occurred. No Company Employee or other Covered Individual may interfere or impede in another employee's making a report under this Policy, consistent with relevant law, including Section 806 of the Sarbanes-Oxley Act or Section 922 of the Dodd-Frank Act.

Although the company encourages internal reporting of potential violations of law or regulation, nothing in this Policy, or in any other Company policy or pronouncement, should be construed to prevent you from reporting possible violations of law or regulation to an appropriate governmental agency or governmental entity, making other disclosures protected under any whistleblower provisions provided by law or regulation, or requiring any pre-clearance from the Company to make such a report or disclosure.
