TAKE-TWO INTERACTIVE SOFTWARE, INC. and SUBSIDIARIES
Notes to Unaudited Condensed Consolidated Financial Statements
(Dollars in thousands, except share and per share amounts)

1. BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

Take-Two Interactive Software, Inc. ("the Company", "we", "us", or similar pronouns) is a leading global publisher, developer and distributor of interactive entertainment software, hardware and accessories. Our publishing segment, which consists of Rockstar Games, 2K Games, 2K Sports and 2K Play, develops, markets and publishes software titles for the following leading gaming and entertainment hardware platforms:

Sony	Microsoft	Nintendo
PLAYSTATION®3 PlayStation®2 PSP® (PlayStation®Portable)	Xbox 360® Xbox®	Wii™ DS™ Game Boy® Advance

We also develop and publish software titles for the PC. Our distribution segment, which primarily includes our Jack of All Games subsidiary, distributes our products as well as third party software, hardware and accessories to retail outlets primarily in North America.

Basis of Presentation

The accompanying condensed consolidated financial statements include the accounts of the Company and reflect all normal and recurring adjustments necessary for fair presentation of our financial position, results of operations and cash flows. Inter-company accounts and transactions have been eliminated. The preparation of these condensed consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in these condensed consolidated financial statements and accompanying notes. We adhere to the same accounting policies in preparation of interim financial statements. As permitted under generally accepted accounting principles, interim accounting for certain expenses, including income taxes, are based on full year assumptions when appropriate. Actual results could differ materially from those estimates.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States have been omitted pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC"), although we believe that the disclosures are adequate to make the information presented not misleading. These condensed consolidated financial statements and accompanying notes should be read in conjunction with our annual consolidated financial statements and the notes thereto, included in our Annual Report on Form 10-K for the year ended October 31, 2007.

Reclassifications

Certain prior year amounts have been reclassified to conform to current year presentation.

Earnings Per Share

The calculation of basic earnings per share ("EPS") for each period is based on the weighted average number of common shares outstanding during the period. The calculation of diluted EPS for each period is based on the weighted average number of common shares outstanding during the period, plus the effect, if any, of dilutive common stock equivalent shares using the Treasury Stock method which include restricted stock outstanding and common shares issuable upon the exercise of stock options. The following table sets

forth a reconciliation between basic and diluted shares, in accordance with SFAS 128, Earnings Per Share (in thousands except per share data):

	Three months ended April 30,		Six months ended April 30,	
	2008	2007	2008	2007
Basic shares	75,098	71,736	74,112	71,548
Add: Shares issued upon assumed exercise of common stock equivalents	856	—	782	—
Diluted shares	75,954	71,736	74,894	71,548

For the three and six months ended April 30, 2007, the Company incurred a net loss, therefore, diluted EPS excludes all common stock equivalents, or 7,042,000. For the three and six months ended April 30, 2008, diluted EPS excludes approximately 3,169,000 and 4,756,000, respectively, of common stock equivalents which are antidilutive.

During the three and six months ended April 30, 2008, we issued approximately 996,000 and 1,366,000 shares, respectively, of common stock in connection with employee stock option exercises and restricted stock awards.

Recently Issued Accounting Pronouncements

In September 2006, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standard ("SFAS") No. 157, Fair Value Measurements ("SFAS 157"), which clarifies the definition of fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurement. SFAS 157 does not require any new fair value measurements and eliminates inconsistencies in guidance found in various prior accounting pronouncements. SFAS 157 is effective for fiscal years beginning after November 15, 2007 (November 1, 2008 for the Company), and interim periods within those fiscal years. However, on February 12, 2008, the FASB issued FASB Staff Position ("FSP") FAS 157-2 which delays the effective date of SFAS 157 for all nonfinancial assets and nonfinancial liabilities, except those that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually). This FSP partially defers the effective date of SFAS 157 to fiscal years beginning after November 15, 2008 (November 1, 2009 for the Company), and interim periods within those fiscal years for items within the scope of this FSP. We do not expect that the adoption of SFAS 157 and FSP FAS 157-2 will have a material effect on our consolidated financial position, cash flows or results of operations.

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities* ("SFAS 159"). SFAS 159 expands the use of fair value accounting but does not affect existing standards, which require assets or liabilities to be carried at fair value. Under SFAS 159, a company may elect to use fair value to measure certain financial assets and financial liabilities, on an instrument-by-instrument basis. If the fair value option is elected, unrealized gains and losses on existing items for which fair value has been elected are reported as a cumulative adjustment to beginning retained earnings. Subsequent to the adoption of SFAS 159, changes in fair value are recognized in earnings. SFAS 159 is effective for fiscal years beginning after November 15, 2007 (November 1, 2008 for the Company), with earlier adoption permitted. We have elected not to early adopt and are currently assessing the impact of SFAS 159 on our consolidated financial position, cash flows and results of operations.

In December 2007, the FASB issued SFAS No. 141(R), *Business Combinations* ("SFAS 141(R)"). This Statement provides greater consistency in the accounting and financial reporting of business combinations. It requires the acquiring entity in a business combination to recognize all assets acquired and liabilities assumed in the transaction, establishes the acquisition-date fair value as the measurement objective for all assets acquired and liabilities assumed, and requires the acquirer to disclose the nature and financial effect of the business combination. SFAS 141 (R) is effective for all fiscal years beginning after December 15,

2008 (November 1, 2009 for the Company) and interim periods within those years, with earlier adoption prohibited.

In December 2007, the FASB issued SFAS No. 160, *Non-Controlling Interests in Consolidated Financial Statements, an amendment of ARB No. 51* ("SFAS 160"), which establishes new standards that will govern the accounting for and reporting of noncontrolling interests in partially owned consolidated subsidiaries and the loss of control of subsidiaries. SFAS 160 requires that noncontrolling interests be reported as a component of equity in a company's consolidated financial statements and that losses will be allocated to these interests even when such allocation might result in a deficit balance. SFAS 160 is effective for all fiscal years beginning after December 15, 2008 (November 1, 2009 for the Company), and interim periods within those years. We do not believe the adoption of SFAS 160 will have a material impact on our financial position, cash flows or results of operations.

In June 2007, the FASB ratified the Emerging Issues Task Force's ("EITF") consensus conclusion on EITF 07-03, *Accounting for Advance Payments for Goods or Services to Be Used in Future Research and Development*. EITF 07-03 addresses the diversity which exists with respect to the accounting for the non-refundable portion of a payment made by a research and development entity for future research and development activities. Under this conclusion, an entity is required to defer and capitalize non-refundable advance payments made for research and development activities until the related goods are delivered or the related services are performed. EITF 07-03 is effective for interim or annual reporting periods in fiscal years beginning after December 15, 2007 (November 1, 2008 for the Company), and requires prospective application for new contracts entered into after the effective date. We do not expect that the adoption of EITF 07-03 will have a material effect on our consolidated financial position, cash flows or results of operations.

2. RECENT DEVELOPMENTS

On March 13, 2008, Electronic Arts Inc. ("EA"), launched a tender offer to acquire the outstanding shares of the Company's Common Stock for \$26.00 per share (the "Offer"). On March 26, 2008, our Board of Directors, with the assistance of our financial and legal advisors, unanimously determined that the Offer was inadequate and recommended that the Company's stockholders reject the Offer. On April 18, 2008, EA announced the second extension of the Offer to May 16, 2008 and reduced the price per share to \$25.74. On May 19, 2008, EA announced a third extension of the Offer to June 16, 2008 at the same price per share of \$25.74. For the three and six months ended April 30, 2008, we recorded approximately \$3,355 in general and administrative expenses related to the Offer.

3. EXECUTIVE MANAGEMENT SERVICES AGREEMENT

The management agreement entered into by the Company and ZelnickMedia Corporation ("ZelnickMedia") in March 2007 ("Management Agreement") provided that Strauss Zelnick, the President of ZelnickMedia, would serve as our non-Executive Chairman. Beginning in March 2007, Ben Feder, a partner of ZelnickMedia, began serving as our Chief Executive Officer on an interim basis. The Management Agreement also provided that ZelnickMedia would periodically provide the services of other executives, including Karl Slatoff.

In February 2008, we entered into an amendment to the Management Agreement (the "April 2008 Amendment") which, among other things, extends the term of the Management Agreement by one year to October 2012 and effective April 1, 2008, increased the annual management fee to \$2,500 and the maximum annual bonus to \$2,500 per fiscal year based on the Company achieving certain performance thresholds. In addition, the April 2008 Amendment provides for a grant to ZelnickMedia of 600,000 shares of restricted stock that vest ratably over a three year period and 900,000 shares of restricted stock that vest over a four year period through 2012, based on the performance of the price of our common stock relative to other companies in the NASDAQ Industrial Index, which will be granted on the fifth trading day following the filing of this Quarterly Report on Form 10-Q. The April 2008 Amendment also provided that

Mr. Zelnick was named Executive Chairman, and Mr. Feder and Mr. Slatoff entered into employment agreements with us to serve as Chief Executive Officer and Executive Vice President, respectively.

In consideration for ZelnickMedia's services under the Management Agreement, as amended, we recorded total cash compensation which includes the management fee, bonus and reimbursement of expenses, of \$1,071 and \$1,517, for the three and six month ended April 30, 2008, respectively, and \$136 for the three and six months ended April 30, 2007. In addition, pursuant to the Management Agreement, on August 27, 2007, we issued stock options to ZelnickMedia to acquire 2,009,075 shares of our common stock at an exercise price of \$14.74 per share, which vest over 36 months and expire 10 years from the date of grant. Each month, we re-measure the fair value of the unvested portion of the options awarded to ZelnickMedia in August 2007, and record compensation expense for the difference between total earned compensation at the end of the period, less total earned compensation at the beginning of the period. As a result, changes in the price of our common stock will change the fair value of the options and compensation expense or benefit recognized in any given period. For the three and six months ended April 30, 2008, we recorded \$3,205 and \$5,264, respectively of stock-based compensation related to this agreement.

4. BUSINESS REORGANIZATION AND RELATED CHARGES

We initiated a management and business reorganization plan in the second quarter of 2007, which included costs to replace our former executive management team and certain members of our Board of Directors, and utilize the services of ZelnickMedia. In addition, we undertook a restructuring plan that consolidated certain functions in central locations. As a result, we have primarily incurred employee termination costs, relocation and lease termination costs and professional fees. We expect to record approximately \$22,000 of business reorganization and related costs, with approximately \$10,000 of expenses related to our executive management and Board changes.

The following table summarizes the activity in accrued business reorganization costs:

	Employee termination costs	Lease termination and relocation costs	Professional fees and other	Total business reorganization and related costs

5. COMPREHENSIVE INCOME (LOSS)

Components of comprehensive income (loss) are as follows:

	For the six months ended April 30,	
	2008	2007
Net income (loss)	\$ 60,225	\$ (72,797)
Foreign currency translation adjustment	(501)	6,810
Comprehensive income (loss)	\$ 59,724	\$ (65,987)

6. INVENTORY

Inventory balances by category are as follows:

	April 30, 2008	October 31, 2007
Finished products	\$ 85,890	\$ 91,512
Parts and supplies	5,931	7,819

Estimated product returns included in inventory at April 30, 2008 and October 31, 2007 were \$8,052 and \$9,758, respectively.

7. SOFTWARE DEVELOPMENT COSTS AND LICENSES

Details of our software development costs and licenses are as follows:

	April 30, 2008		October 31, 2007	
	Current	Non-current	Current	Non-current
Software development costs, internally developed	\$ 115,500	\$ 21,089	\$ 122,307	\$ 7,869
Software development costs, externally developed	15,819	25,721	8,572	24,297

Software development costs and licenses	\$ 136,640	\$ 49,210	\$ 141,441	\$ 34,465

Amortization and impairment of software development costs and licenses (excluding stock-based compensation) for the three and six months ended April 30, 2008 were \$45,962 and \$64,544, respectively, and \$23,130 and \$41,964, for the three and six months ended April 30, 2007, respectively.

Software development costs and licenses as of April 30, 2008 and October 31, 2007 include \$142,904 and \$153,121, respectively, related to titles that have not been released.

8. BUSINESS ACQUISITIONS

In March 2008, we acquired the assets of Mad Doc Software LLC ("Mad Doc"), an independent development studio in North America. Total consideration paid upon acquisition, which is subject to adjustment based on specified working capital levels, was \$5,978, consisting primarily of \$3,650 in cash, 53,033 shares of our unregistered common stock and \$975 of development advances paid prior to the acquisition. The terms of the transaction also include additional contingent deferred payments in cash and stock of up to \$15,000. We preliminarily recorded \$4,527 of goodwill and \$1,275 of identified intangible assets and capitalized software as of April 30, 2008 in connection with this acquisition. The goodwill recorded in connection with this acquisition is deductible for tax purposes.

In December 2007, we acquired all of the outstanding capital stock of Illusion Softworks ("Illusion"), the developer of the *Mafia* video game franchise. The acquisition reflects our strategy to add high-value

intellectual property and development studios to our portfolio. Total consideration paid upon acquisition was \$33,025, consisting primarily of 1,490,605 shares of our unregistered common stock and \$4,645 of development advances paid prior to the acquisition. The terms of the transaction also include additional contingent deferred payments in cash and stock of up to \$10,000, which is expected to be allocated between purchase price and employee compensation expense when the conditions requiring their payment are met. We recorded \$25,067 of goodwill and \$8,200 of identified intangible assets and capitalized software as of April 30, 2008 in connection with this acquisition. We are currently evaluating the opportunity to claim tax deductions of the goodwill.

9. ACCRUED EXPENSES AND OTHER CURRENT LIABILITIES

Accrued expenses and other current liabilities consist of the following:

	April 30, 2008	October 31, 2007
Software development costs	\$ 81,125	\$ 41,500
Compensation and benefits	27,391	30,968

10. CREDIT AGREEMENT

In November 2007, we entered into an amended and restated credit agreement with Wells Fargo Foothill, Inc. (the "Amended Credit Agreement"), which increased the principal amount of our revolving credit facility from \$100,000 to \$140,000 and expires on July 3, 2012.

In February 2008, we entered into a First Amendment to the Amended Credit Agreement (the "First Amendment"), which increased our interest rates. As of April 30, 2008, revolving loans under the Amended Credit Agreement bear interest at our election of (a) 2.00% to 2.50% above a certain base rate (7.50% at April 30, 2008), or (b) 3.25% to 3.75% above the LIBOR Rate with a minimum 4.00% LIBOR Rate (7.75% at April 30, 2008), with the margin rate subject to the achievement of certain average liquidity levels. We are also required to pay an annual fee on the unused available balance, ranging from 0.25% to 0.75% based on amounts borrowed. As of April 30, 2008 and October 31, 2007, we had borrowed \$16,000 and \$18,000, respectively, and had \$116,279 and \$72,000, respectively, available for borrowings under the Amended Credit Agreement. For the three and six months ended April 30, 2008, we recorded \$1,083 and \$1,862, respectively, of interest expense and fees related to the Amended Credit Agreement.

The Amended Credit Agreement also allows for the issuance of letters of credit in an aggregate amount of up to \$25,000. Any letters of credit outstanding reduce availability under the revolving line of credit. We are required to pay a one time issuance fee of 0.825% and an annual fee of 3.25% to 3.75% (3.75% at April 30, 2008) of any outstanding letters of credit. We had \$7,060 and \$10,000 of letters of credit outstanding at April 30, 2008 and October 31, 2007, respectively.

As of April 30, 2008, we were in compliance with all covenants and requirements as outlined in the Amended Credit Agreement.

Debt issuance costs capitalized in connection with our Credit Facility total \$2,766 and are being amortized over the five year term of the Credit Facility. Amortization related to these costs is included in interest expense in the consolidated statements of operations.

11. INCOME TAXES

On November 1, 2007 we adopted FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes, an interpretation of SFAS No. 109* ("FIN 48"). FIN 48 contains a two-step approach to recognizing and measuring uncertain tax positions accounted for in accordance with SFAS 109, *Accounting for Income Taxes*. The first step is to evaluate the tax position taken or expected to be taken in a tax return by determining if the weight of available evidence indicates that it is more-likely-than-not that, on an evaluation of the technical merits, the tax position will be sustained on audit, including resolution of any related appeals or litigation. The second step is to measure the tax benefit as the largest amount that is more than 50% likely to be realized upon ultimate settlement.

The total amount of gross unrecognized tax benefits as of November 1, 2007 (the date of adoption of FIN 48) was \$25,555, including interest and penalties, all of which would affect our effective tax rate if realized. The adoption of FIN 48 resulted in an increase to accumulated deficit of \$1,075 in our condensed consolidated balance sheet. We recognize interest and penalties related to uncertain tax positions in the provision for income taxes in our condensed consolidated statements of operations. The gross amount of interest and penalties accrued as of the date of adoption was \$7,079.

Domestically, U.S. federal and state taxing authorities are currently examining our income tax returns for years from fiscal 2000 through fiscal 2006. We believe the gross unrecognized tax benefits for all domestic income tax audit issues, considered in the aggregate as of November 1, 2007, could decrease by an immaterial amount in the next 12 months. We are no longer subject to audit for U.S. federal and state income tax returns for periods prior to fiscal 2000.

Internationally, tax authorities for non-U.S. jurisdictions are examining our returns affecting unrecognized tax benefits. We believe the gross unrecognized tax benefits, as of November 1, 2007, could decrease (whether by payment, release, or a combination thereof) in the next 12 months by as much as \$5,834. With some exceptions, we are generally no longer subject to tax examinations in non-U.S. jurisdictions for years prior to fiscal 2001. During the first half of 2008, the gross unrecognized tax benefits increased \$2,033 including interest and penalties, primarily related to unrecognized tax benefits in local and non-U.S. taxing jurisdictions.

We believe that we have provided for any reasonably foreseeable outcomes related to our tax audits and that any settlement will not have a material adverse effect on our consolidated financial position, cash flows or results of operations. However, there can be no assurances as to the possible outcomes.

12. LEGAL AND OTHER PROCEEDINGS

Various lawsuits, claims, proceedings and investigations are pending involving us and certain of our subsidiaries as described below in this section. In accordance with SFAS No. 5, *Accounting for Contingencies*, we record accruals for such contingencies when it is probable that a liability will be incurred and the amount of loss can be reasonably estimated. In addition to the matters described herein, we are involved in or subject to, or may become involved in or subject to, routine litigation, claims, disputes, proceedings and investigations in the ordinary course of business, which in our opinion will not have a material adverse effect on our financial condition, cash flows or results of operations.

Consumer Class Action — Grand Theft Auto: San Andreas. In July 2005, we received four complaints for purported class actions. Two of the four complaints were filed in the United States District Court for the Southern District of New York, one was filed in the United States District Court, Eastern District of Pennsylvania, and one was filed in the Circuit Court in St. Clair County, Illinois. The state court action was removed to federal court and the Judicial Panel on Multidistrict Litigation transferred all the cases to the U.S. District Court for the Southern District of New York, which consolidated them under the caption In re Grand Theft Auto Video Game Consumer Litigation (No. II), 06-MD-1739 (SWK)MHD). The plaintiffs, alleged purchasers of our *Grand Theft Auto: San Andreas* game, assert that we engaged in consumer deception, false advertising and breached an implied warranty of merchantability and were unjustly enriched as a result of our alleged failure to disclose that *Grand Theft Auto: San Andreas* contained "hidden" content, which resulted in the game receiving a Mature 17+ ("M") rating from the Entertainment Software Rating Board, or the ESRB, rather than an Adults Only 18+ ("AO") rating. The complaints seek unspecified damages, declarations of various violations of law and litigation costs.

In November 2007, we announced the preliminary settlement of the foregoing consumer class action lawsuits. The settlement was presented to the United States District Court for the Southern District of New York for preliminary approval, and the Court granted preliminary approval on December 4, 2007. A hearing on final approval will occur in June 2008. If the proposed settlement receives final approval, all claims in these lawsuits will be dismissed without any admission of liability or wrongdoing by us.

We have committed to spend at least \$1,025 on settlement benefits on these matters, and the settlement generally caps the defendants' out-of-pocket costs at no more than \$2,750, in addition to the costs of providing notice to class members and paying a fee to plaintiffs' counsel. We have established a sufficient reserve to cover the expected cost of this settlement and related expenses.

In January 2006, the City of Los Angeles filed a complaint against us in the Superior Court of the State of California alleging violations of California law on substantially the same basis as the consumer class action regarding *Grand Theft Auto: San Andreas*. That case was removed and transferred to the United States District Court for the Southern District of New York and is pending there. The settlement discussed above will not resolve this matter, but we have had settlement discussions with the City of Los Angeles and expect to resolve the matter shortly after final approval of the class settlement, if such approval occurs.

Securities Class Action — Grand Theft Auto: San Andreas and Option Backdating. In February and March 2006, four purported class action complaints were filed against us and certain of our former officers and directors in the United States District Court for the Southern District of New York. The complaints alleged that we violated Sections 10(b), 20(a) and Rule 10b-5 of the Securities Exchange Act of 1934 by making or causing us to make untrue statements or failing to disclose in certain press releases and periodic reports we filed with the SEC that, among other things, *Grand Theft Auto: San Andreas* contained "hidden" content which should have resulted in the game receiving an "AO" rating from the ESRB rather than an "M" rating. The actions were consolidated under the name In re Take-Two Interactive Securities Litigation, No. 1:06-cv-00803 (SWK), and a lead plaintiff was appointed. In September 2006, the lead plaintiff filed a consolidated amended complaint, which included claims relating to *Grand Theft Auto: San Andreas* and to the backdating of stock options. On April 16, 2007, the lead plaintiff filed a consolidated second amended complaint, which included additional allegations based on an investigation of options backdating conducted by the Special Litigation Committee of the Board of Directors and our restatement of financial statements relating to options backdating. This complaint was filed against us, our former Chief Executive Officer, our former Chief Financial Officer, our former Chairman of the Board, two of our directors and one former director, our Rockstar Games subsidiary, and one officer and one former officer of our Rockstar Games subsidiary. On June 25, 2007, we filed a motion to dismiss the consolidated amended complaint. Plaintiffs filed their opposition to these motions to dismiss on September 4, 2007, and reply briefs were filed on October 4, 2007. On April 16, 2008, Judge Kram issued an Opinion and Order, which dismissed, with leave to amend, certain claims as to all defendants relating to *Grand Theft Auto: San Andreas* and certain claims as to the Company's former CEO, CFO and certain director defendants

relating to the backdating of stock options. In addition, Judge Kram rejected the alleged "curative disclosure" dates alleged by lead plaintiff. The lead plaintiff will have an opportunity to file a Third Amended Consolidated Complaint along with a motion explaining how the amended complaint cures the defects noted in the Court's Opinion. On April 30, 2008, the lead plaintiff moved for an order requesting that the Court allow them "access" to the underlying binary code for *Grand Theft Auto: San Andreas* for purposes of reviewing the code to amend their complaint. We opposed the request and are awaiting the Court's ruling on the lead plaintiff's motion. The Court has stayed the due date for the filing of the Third Amended Complaint pending a decision on the lead plaintiff's motion.

Posey et al. Personal Injury Action. In September 2006, personal representatives of the estate of Delbert and Tyrone Posey and Marilea Schmid brought an action against us, Sony Computer Entertainment America Inc. and Sony Corporation of America and Cody Posey in the Second Judicial District Court of Bernalillo County, New Mexico, alleging that *Grand Theft Auto: Vice City* resulted in "copycat" violence that caused the deaths of the above named individuals. The suit seeks damages (including punitive damages) against all of the defendants. Both Sony entities have tendered their defense and requested indemnification from us, and we have accepted such tender. We received copies of the complaint and summonses in December 2006, and moved to dismiss the complaint in January 2007 for lack of personal jurisdiction and for failure to state a claim. The plaintiffs opposed the motions and requested jurisdictional discovery. The court heard argument on the motions on December 18, 2007, and granted them in their entirety. The court entered an order of dismissal on January 11, 2008. Plaintiff did not file a timely appeal with the Clerk of the District Court within 30 days of the entry of the order, as required by the New Mexico rules. The District Court declined to excuse plaintiff's defective notice of appeal. The New Mexico Court of Appeals recommended summary dismissal of the appeal for failure to file the notice of appeal and the parties submitted memoranda to the Court in support of and in opposition to that proposed disposition. After its review, the Court of Appeals dismissed the action on May 19, 2008.

St. Clair Derivative Action. In January 2006, the St. Clair Shores General Employees Retirement System filed a purported class and derivative action complaint in the Southern District of New York against us, as nominal defendant, and certain of our directors and certain former officers and directors, St. Clair Shores Gen. Employees Retirement System v. Eibeler, no. 1:06-cv-0688 (SWK). The factual allegations in this action are similar to those in *In re Take-Two Interactive Securities Litigation*. The plaintiff asserts that certain defendants breached their fiduciary duty by selling their stock while in possession of certain material non-public information and that we violated Section 14(a) and Rule 14a-9 of the Exchange Act by failing to disclose material facts in our 2003, 2004 and 2005 proxy statements in which we solicited approval to increase share availability under our 2002 Stock Option Plan. The plaintiff seeks the return of all profits from the alleged insider trading conducted by the individual defendants who sold our stock, unspecified compensatory damages with interest and its costs in the action. In October 2006, the court issued a stay of proceedings pending an investigation by the Special Litigation Committee. Following the conclusion of that investigation, on March 23, 2007, the Special Litigation Committee moved to dismiss the complaint based on, among other things, the Committee's conclusion that "future pursuit of this action is not in the best interests of Take-Two or its stockholders." The plaintiff subsequently conducted discovery concerning the Special Litigation Committee's motion to dismiss. On August 24, 2007, the plaintiff filed an Amended Derivative and Class Action Complaint. The Amended Derivative and Class Action Complaint alleges, among other things, that defendants breached their fiduciary duties in connection with the issuance of proxy statements in 2001, 2002, 2003, 2004 and 2005. On September 24, 2007, the Special Litigation Committee moved to dismiss the Amended Complaint or to consolidate certain of its claims with *In re Take-Two Interactive Securities Litigation*. Briefing on the Special Litigation Committee's motions was completed in March 2008, and the parties await a decision by the Court.

Derivative Action — Option Backdating. In July and August 2006, Richard Lasky and Raeda Karadsheh filed purported derivative action complaints in the Southern District of New York against us, as nominal defendant, and certain of our directors and certain former officers and directors. The complaints alleged

violations of federal and state law, including breaches of fiduciary duties, abuse of control, gross mismanagement, waste of corporate assets, and unjust enrichment in connection with the granting of certain of our stock options. The complaints sought unspecified damages against all of the individual defendants, reimbursement from certain of the defendants of bonuses or other incentive or equity-based compensation paid to them, equitable and other relief relating to the proceeds from certain of the defendants' alleged improper trading activity in our stock, adoption of certain corporate governance proposals and recovery of litigation costs. The Lasky and Karadsheh actions were consolidated in November 2006 under the name *In re Take-Two Interactive Software, Inc. Derivative Litigation*, no. 1:06-cv-05279 (LTS). The plaintiffs filed a consolidated complaint on January 22, 2007, which focuses exclusively on our historical stock option granting practices. These matters were referred to the Special Litigation Committee. On September 7, 2007, the Special Litigation Committee moved to dismiss certain parties from the litigation and to have any claims against the remaining parties be assigned to us for disposition by our management and Board of Directors. The plaintiffs have been conducting discovery concerning the Committee's recommendation for several months. Briefing of this motion is expected to be completed in July 2008, after which the parties will await a decision by the Court.

Stockholder Action — Solomon. On March 7, 2008, Patrick Solomon, an alleged stockholder of the Company, filed a complaint in the Court of Chancery of the State of Delaware against us and certain of our officers and directors. The plaintiff contends that defendants breached their fiduciary duties by, among other things, allegedly refusing to explore premium offers by Electronic Arts Inc. to acquire all of the Company's shares, enacting a bylaw amendment allegedly designed to entrench the current board by preventing stockholders from nominating and electing alternative directors, agreeing to an amendment to a management agreement with ZelnickMedia and issuing a proxy statement for the 2008 Annual Meeting that allegedly contained misleading and incomplete information. The complaint seeks preliminary and permanent injunctive relief, rescissory and other equitable relief and damages. The plaintiff immediately moved for preliminary injunctive relief, and the parties engaged in expedited discovery proceedings. However, several of the claims have been addressed by our voluntary actions in issuing a supplemental proxy statement, rescinding the notice bylaw amendment, granting additional time for any present or former stockholder to nominate directors or propose business at the 2008 Annual Meeting, and extending the annual meeting date. After we took these measures, the plaintiff agreed to withdraw his motion for preliminary injunctive relief. We believe the claims lack merit, and intend to defend vigorously against them.

Stockholder Action — St.Clair. On April 1, 2008, St. Clair Shores General Employees Retirement System, a stockholder, filed a purported derivative action on behalf of the Company in the Delaware Court of Chancery against certain of our directors and ZelnickMedia. The allegations are essentially the same as those in the Solomon stockholder action described above, with an additional complaint about the "poison pill" adopted by our Board in March 2008, and an additional claim against ZelnickMedia for aiding and abetting the directors' alleged breach of fiduciary duty. Because the action was duplicative, the plaintiff agreed to stay all proceedings in the case in favor of the Solomon case.

Stockholder Action — Maulano. On April 11, 2008, Michael Maulano, an alleged stockholder, filed a purported class action in New York state court, New York County, against us and certain of our directors. The allegations are essentially the same as those in the Solomon case, above, with an additional complaint about the "poison pill" adopted by our Board in March 2008. Because the action was duplicative, the plaintiff agreed to stay all proceedings in the case in favor of the Solomon case. We believe the claims lack merit, and intend to defend vigorously against them.

We intend to vigorously defend all of the above matters and, with respect to the derivative actions, we have been advised that the individual defendants will vigorously defend such actions. However, we cannot predict the outcome of these matters and, if determined adversely to us, such matters, either singly or in the aggregate, could result in the imposition of significant judgments, fines and/or penalties, which could have a material adverse effect on our financial condition, cash flows and results of operations.

Strickland et al. Personal Injury Action. In February 2005, the personal representatives of the Estates of Arnold Strickland, James Crump and Ace Mealer brought an action in the Circuit Court of Fayette County, Alabama against us, Sony Computer Entertainment America Inc., Sony Corporation of America, Wal-Mart, GameStop and Devin Moore, alleging under Alabama's manufacturers' liability and wrongful death statutes, that our video games designed, manufactured, marketed and/or supplied to Mr. Moore resulted in "copycat violence" that caused the death of Messrs. Strickland, Crump and Mealer. The suit seeks damages (including punitive damages) against all of the defendants in excess of \$600,000. Our motion to dismiss the action on the merits was denied. An accompanying motion to dismiss for lack of personal jurisdiction was denied by the trial court, and the Alabama Supreme Court subsequently rejected a petition for writ of mandamus on that issue. In April 2006, the plaintiffs amended the complaint to add a claim for civil conspiracy; we moved to dismiss that claim and the motion is pending. Under the most recent amended scheduling order, all fact and expert discovery was to have been completed by June 15, 2007, with a mediation on November 8, 2007 and trial, if necessary, to commence no earlier than January 18, 2008. Due to issues that arose in expert discovery, however, the amended scheduling order was suspended. The case was stayed until mid-January 2008 to permit the Plaintiffs to obtain new lead counsel, which they have done. There currently is no Scheduling Order in effect, though a status conference was held on April 15, 2008, where the court granted, over our objections, plaintiff's request for leave to retain an expert. The court anticipates holding an evidentiary hearing in late October 2008 on the Corporation's request to exclude the opinion testimony of plaintiffs' causation experts on the grounds that such testimony is inadmissible under the standards of *United States v. Frye*. We believe that the claims are without merit and that this action is similar to lawsuits brought and uniformly dismissed by courts in other jurisdictions.

Grand Jury Subpoenas. We have received grand jury subpoenas issued by the District Attorney of the County of New York requesting production of documents covering various periods beginning on January 1, 1997, including those relating to, among other things: the so-called "Hot Coffee" scenes in *Grand Theft Auto: San Andreas*; the work of our Board of Directors, all Board Committees, and the Special Litigation Committee; certain acquisitions entered into by us; billing and payment records relating to PricewaterhouseCoopers LLP and the termination of PricewaterhouseCoopers LLP as our auditors; communications to financial analysts and stockholders about acquisitions and financial results; compensation and human resources documents of certain of our directors and employees and former directors and employees; stock-based compensation; the SEC's July 2006 inquiry; legal services performed for employees; corporate credit card and expense records of certain individuals; the SEC bar of our former Chief Executive Officer, Ryan Brant; the resolution to amend our Incentive Stock Plan; and ethics, securities, and conflict of interest policies and questionnaires. We are fully cooperating with the District Attorney's Office.

SEC Investigation. In July 2006, we received notice from the SEC that it was conducting an informal non-public investigation of certain stock option grants made from January 1997 to present and in April 2007 we received notice from the SEC that it was conducting a formal investigation of such stock option grants. As a result of the Special Litigation Committee's internal review of our option grants, in February 2007 we restated our financial statements for prior periods in our Annual Report on Form 10-K for the fiscal year ended October 31, 2006. On August 9, 2007, we received a "Wells" notice from the Staff of the Division of Enforcement of the SEC informing us of its intention to request authority to file charges, and seek a civil monetary penalty in connection with its investigation. We have submitted a response to the Staff's notice. We continue to cooperate with the Staff and continue to expect to resolve this investigation by means of a settlement rather than a contested litigation of charges.

Tax Inquiries. We have been in contact with and have received requests for information from taxing authorities for records relating to the grant and exercise of options and tax deductions taken by us from October 2000 to October 2004. We are fully cooperating with these inquiries.

Special Litigation Committee. In connection with its investigation, the Special Litigation Committee determined that certain stock options issued by us to certain former members of our Board of Directors

were improperly dated. As a result, and in connection with our remedial measures, we entered into an agreement with each of the relevant former directors whereby they agreed to remit to us any after-tax gains that they realized as a result of the improper grant dates. In the event of grants that remained unexercised, we re-priced such stock options to reflect an appropriate price for which such stock options should have been deemed granted. This agreement was entered into voluntarily by us and the relevant directors, none of whom served on the Special Litigation Committee. In addition, we have entered into similar agreements with certain former members of management who received improperly dated stock options.

13. SEGMENT AND GEOGRAPHIC INFORMATION

We are a publisher and distributor of interactive software games designed for personal computers, video game consoles and handheld platforms. Revenue earned by our publishing segment is primarily derived from the sale of internally developed software titles and software titles developed on our behalf by third parties. Revenue earned by our distribution segment is derived from the sale of third party software titles, accessories and hardware.

Our Chief Executive Officer is our chief operating decision maker ("CODM"). We are centrally managed and the CODM primarily uses consolidated financial information supplemented by sales information by product category, major product title and platform for making operational decisions and assessing financial performance.

Our CODM is presented with financial information that contains information that separately identifies our publishing and distribution operations, including gross margin information. Accordingly, we consider our publishing and distribution businesses to be distinct reportable segments.

Our operating segments do not record inter-segment revenue and therefore none has been reported. We do not allocate operating expenses, interest and other income, interest expense or income taxes to operating segments. Our accounting policies for segment reporting are the same as for the Company as a whole.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Our Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") is provided in addition to the accompanying condensed consolidated financial statements and footnotes to assist readers in understanding our results of operations, financial condition and cash flows. The following discussion should be read in conjunction with the MD&A included in our annual consolidated financial statements and the notes thereto, included in our Annual Report on Form 10-K for the year ended October 31, 2007.

Overview

Our Business

We are a global publisher, developer and distributor of interactive entertainment software, hardware and accessories. Our publishing segment consists of our Rockstar Games, 2K Games, 2K Sports and 2K Play publishing labels. We develop, market and publish software titles for the leading gaming and entertainment hardware platforms including: Sony's PLAYSTATION®3 ("PS3") and PlayStation®2 ("PS2") computer entertainment systems; Sony's PSP® (PlayStation®Portable) ("PSP") system; Microsoft's Xbox 360® ("Xbox 360") and Xbox® ("Xbox") video game and entertainment systems; Nintendo's Wii™ ("Wii"), DS™ ("DS") and Game Boy® Advance ("GBA"); and for the PC and Games for Windows®. The installed base for the prior generation of console platforms, including PS2 and Xbox ("prior generation platforms") is substantial, and the release of the Xbox 360, PS3 and Wii platforms ("current generation platforms") has further expanded the video game software market. Our plan is to diversify and continue to expand the number of titles released on the current generation platforms while continuing to market titles developed for prior generation platforms given their significant installed base, as long as it is economically attractive to do so.

Our strategy is to capitalize on the growth of the interactive entertainment market, particularly the expanding demographics of video game players, and focus on creating premium quality games and successful franchises for which we can create sequels. We have established a portfolio of successful proprietary software content for the major hardware platforms in a wide range of genres including action, adventure, strategy, role-playing, sports and racing. We have created, licensed and acquired a group of highly recognizable brands to match the variety of consumer demographics we aspire to serve, ranging from adults to children and hard-core game enthusiasts to casual gamers. We expect Rockstar Games, our wholly-owned publisher of the hit *Grand Theft Auto* and *Midnight Club* franchises, to continue to be a leader in the action product category by leveraging our existing titles as well as developing new brands. We also expect 2K Games, developer of the successful *Civilization* series and the critically acclaimed *BioShock* title, to continue to develop new and successful franchises in the future. Our 2K Sports series, which includes *Major League Baseball 2K*, *NBA 2K* and *NHL 2K*, provides more consistent year over year revenue streams than our Rockstar Games and 2K Games' businesses because we publish them on an annual basis. Targeting growth opportunities, we recently established the 2K Play label to focus on the family-oriented game market. *Carnival Games* has been a strong performing title, and 2K Play is planning to leverage this brand through sequels and product extensions. 2K Play also has a partnership with Nickelodeon to publish video games based on top rated Nick Jr. titles such as *Dora the Explorer* and *Go, Diego, Go!* We expect family-oriented gaming to be an important component of our industry in the future. We have also recently announced our expansion initiatives in the rapidly growing Asia Pacific markets. Our strategy includes broadening distribution in this region for our interactive entertainment products; developing a strong presence in Japan; and establishing a meaningful online game operation, especially in China and Korea.

Revenue in our publishing segment is primarily derived from the sale of internally developed software titles and software titles developed on our behalf by third parties. Operating margins in our publishing business are dependent in part upon our ability to continually release new, commercially successful products and to manage software product development costs. Although software development costs as well

as the development cycle for current generation platforms have increased compared to prior generation platforms, the impact is partially offset by the higher selling prices on current generation software. We develop most of our front-line products internally, and we own many of our most important intellectual properties, which we believe best positions us financially and competitively. Operating margins associated with our externally developed titles, or titles for which we do not own the intellectual property, are generally lower because they require us to acquire licenses and provide minimum development guarantees. We continue to develop new revenue streams as they evolve, including higher margin sources such as in-game advertising and downloadable episodic content, which we expect will become more significant to our business over time. In the third quarter of 2008, we announced plans to have our wholly-owned intellectual property, *BioShock*, developed into a feature film by Universal Pictures, thereby delivering value by leveraging the strength of our intellectual property.

Our distribution segment, which is primarily comprised of our Jack of All Games subsidiary, distributes our products as well as third party software, hardware and accessories to retail outlets primarily in North America. Revenue in our distribution segment is derived from the sale of third party software titles, accessories and hardware. Operating margins in our distribution business are dependent in part on the mix of software and hardware sales. Software product sales generally yield higher margins than hardware product sales.

Recent Developments

On March 13, 2008, Electronic Arts Inc. ("EA"), launched a tender offer to acquire the outstanding shares of the Company's Common Stock for \$26.00 per share (the "Offer"). On March 26, 2008, our Board of Directors, with the assistance of our financial and legal advisors, unanimously determined that the Offer was inadequate and recommended that the Company's stockholders reject the Offer. On April 18, 2008, EA announced the second extension of the Offer to May 16, 2008 and reduced the price per share to \$25.74. On May 19, 2008, EA announced a third extension of the Offer to June 16, 2008 at the same price per share of \$25.74.

Critical Accounting Policies and Estimates

Our most critical accounting policies, which are those that require significant judgment, include: valuation of goodwill, long-lived assets; valuation and recognition of stock-based compensation; allowances for returns and price concessions; capitalization and recognition of software development costs and licenses; revenue recognition; and income taxes. In-depth descriptions of these can be found in our Annual Report on Form 10-K for the fiscal year ended October 31, 2007.

Recently Issued Accounting Pronouncements

In September 2006, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standard ("SFAS") No. 157, Fair Value Measurements ("SFAS 157"), which clarifies the definition of fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurement. SFAS 157 does not require any new fair value measurements and eliminates inconsistencies in guidance found in various prior accounting pronouncements. SFAS 157 is effective for fiscal years beginning after November 15, 2007 (November 1, 2008 for the Company), and interim periods within those fiscal years. However, on February 12, 2008, the FASB issued FASB Staff Position ("FSP") FAS 157-2 which delays the effective date of SFAS 157 for all nonfinancial assets and nonfinancial liabilities, except those that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually). This FSP partially defers the effective date of SFAS 157 to fiscal years beginning after November 15, 2008 (November 1, 2009 for the Company), and interim periods within those fiscal years for items within the scope of this FSP. We do not expect that the adoption of SFAS 157 and FSP FAS 157-2 will have a material effect on our consolidated financial position, cash flows or results of operations.

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities* ("SFAS 159"). SFAS 159 expands the use of fair value accounting but does not affect existing standards, which require assets or liabilities to be carried at fair value. Under SFAS 159, a company may elect to use fair value to measure certain financial assets and financial liabilities, on an

instrument-by-instrument basis. If the fair value option is elected, unrealized gains and losses on existing items for which fair value has been elected are reported as a cumulative adjustment to beginning retained earnings. Subsequent to the adoption of SFAS 159, changes in fair value are recognized in earnings. SFAS 159 is effective for fiscal years beginning after November 15, 2007 (November 1, 2008 for the Company), with earlier adoption permitted. We have elected not to early adopt and are currently assessing the impact of SFAS 159 on our consolidated financial position, cash flows and results of operations.

In December 2007, the FASB issued SFAS No. 141(R), *Business Combinations* ("SFAS 141(R)"). This Statement provides greater consistency in the accounting and financial reporting of business combinations. It requires the acquiring entity in a business combination to recognize all assets acquired and liabilities assumed in the transaction, establishes the acquisition-date fair value as the measurement objective for all assets acquired and liabilities assumed, and requires the acquirer to disclose the nature and financial effect of the business combination. SFAS 141 (R) is effective for all fiscal years beginning after December 15, 2008 (November 1, 2009 for the Company) and interim periods within those years, with earlier adoption prohibited.

In December 2007, the FASB issued SFAS No. 160, *Non-Controlling Interests in Consolidated Financial Statements, an amendment of ARB No. 51* ("SFAS 160"), which establishes new standards that will govern the accounting for and reporting of noncontrolling interests in partially owned consolidated subsidiaries and the loss of control of subsidiaries. SFAS 160 requires that noncontrolling interests be reported as a component of equity in a company's consolidated financial statements and that losses will be allocated to these interests even when such allocation might result in a deficit balance. SFAS 160 is effective for all fiscal years beginning after December 15, 2008 (November 1, 2009 for the Company), and interim periods within those years. We do not believe the adoption of SFAS 160 will have a material impact on our financial position, cash flows or results of operations.

In June 2007, the FASB ratified the Emerging Issues Task Force's ("EITF") consensus conclusion on EITF 07-03, *Accounting for Advance Payments for Goods or Services to Be Used in Future Research and Development*. EITF 07-03 addresses the diversity which exists with respect to the accounting for the non-refundable portion of a payment made by a research and development entity for future research and development activities. Under this conclusion, an entity is required to defer and capitalize non-refundable advance payments made for research and development activities until the related goods are delivered or the related services are performed. EITF 07-03 is effective for interim or annual reporting periods in fiscal years beginning after December 15, 2007 (November 1, 2008 for the Company), and requires prospective application for new contracts entered into after the effective date. We do not expect that the adoption of EITF 07-03 will have a material effect on our consolidated financial position, cash flows or results of operations.

Our increase in net revenue primarily reflects higher sales of titles from our *Grand Theft Auto* franchise primarily due to our release of *Grand Theft Auto IV* on April 29, 2008. Total revenue generated from our *Grand Theft Auto* titles was \$336.5 million higher in the 2008 period. In addition, net revenue from our *Bully* franchise including our release of *Bully: Scholarship Edition* in the second quarter of 2008, was \$21.3 million higher in the 2008 period. Partially offsetting the increase in net revenue was a decrease of \$11.2 million in net sales of *Ghost Rider* released in the second quarter of 2007 and a decrease in sales of peripherals of \$4.7 million in 2008 reflecting the sale of the Joytech accessories business in the fourth quarter of 2007.

Sales on current generation platforms accounted for approximately 88.9% of our total net publishing revenue in the second quarter of 2008. Xbox 360 and PS3 software sales in the second quarter of 2008 increased from the same period in 2007 by \$191.9 million and \$159.3 million, respectively, primarily due to the release of *Grand Theft Auto IV*. Wii software sales accounted for \$31.3 million of our net publishing revenue in the 2008 period, reflecting the strong sales of *Bully: Scholarship Edition* and *Carnival Games*. Sales on the prior generation platforms decreased by \$35.3 million or 55.8%, mainly reflecting lower sales of *Grand Theft Auto: Vice City Stories*, which was released in the second quarter of 2007. We expect sales on the prior generation platforms to continue to decline as a result of the ongoing hardware transition and have therefore reduced the number of titles in development for these platforms. We have reduced pricing on several of our software titles for the prior generation platforms as the current generation hardware installed base grows. PC sales decreased by \$9.4 million, primarily due to decreased sales of *The Elder Scrolls IV: Oblivion* and *The Elder Scrolls IV: The Shivering Isles*, which were released in the second quarter of 2006 and 2007, respectively.

Gross profit as a percentage of net revenue increased significantly due to the release of *Grand Theft Auto IV* in the second quarter of 2008, as this title is internally developed and the intellectual property is wholly-owned. Product costs decreased as a percentage of net revenue, primarily due to manufacturing discounts we received related to the release of *Grand Theft Auto IV*. Internal royalties increased as a percentage of net revenue, reflecting increased sales of our *Grand Theft Auto* titles.

Excluding the impact of *Grand Theft Auto IV*, product costs decreased as a percentage of net revenue, primarily due to a \$5.2 million impairment charge recorded on intellectual property in the second quarter of 2007. Software development costs and royalties as a percentage of net revenue were relatively unchanged from period to period. License costs increased as a percentage of net revenue due to higher royalty expense related to our *Major League Baseball* license.

Revenue earned from licensing our intellectual property to third parties decreased to \$4.0 million in the second quarter of 2008 from \$5.9 million in the 2007 period, primarily due to our January 2007 release of *Grand Theft Auto: San Andreas* for the PS2 in Japan, partially offset by our December 2007 release of *Grand Theft Auto: Vice City Stories* for the PS2 and PSP in Japan.

Revenue earned outside of North America accounted for approximately 34.9% of our net revenue in the second quarter of 2008 compared to 27.5% in the 2007 period. This increase was primarily attributable to our simultaneous global release of *Grand Theft Auto IV* for the Xbox 360 and PS3. Foreign exchange rates increased revenue by approximately \$14.0 million in the second quarter of 2008.

Distribution

(thousands of dollars)	2008	%	2007	%	Increase/ (decrease)	% Increase/ (decrease)

Gross profit	\$ 4,305	7.6%	\$ 4,303	8.4%	\$ 2	0.0%

Net revenue associated with software on current generation platforms increased \$4.6 million, reflecting increased availability of the current generation platforms, especially the Wii, partially offset by a decrease in sales of prior generation software of \$3.0 million, as consumers continued to shift their spending to current generation software. In addition, we experienced an increase in PC sales of \$4.0 million. Foreign currency exchange rates increased net revenue by approximately \$4.2 million in the second quarter of 2008, primarily as a result of a weakening U.S. dollar.

Selling and marketing

Selling and marketing expenses increased \$17.8 million for the three months ended April 30, 2008 as compared to the same period in 2007 primarily due to:

- i. an increase in marketing expense of \$12.7 million, mainly for the releases of *Grand Theft Auto IV* and *Bully: Scholarship Edition* in the second quarter of 2008; and

- ii. a \$4.3 million increase in personnel costs, mainly resulting from higher severance and incentive compensation expense in our European territories.

General and administrative

General and administrative expenses were \$49.2 million in the three months ended April 30, 2008 as compared to \$40.5 million in the three months ended April 30, 2007, an increase of \$8.7 million. This increase was primarily due to:

- i. \$3.4 million of legal and investment banking expenses related to the Offer;
- ii. \$3.2 million of stock-based compensation expense related to the management agreement with ZelnickMedia;
- iii. an increase in bad debt expense of \$3.9 million as a result of our increase in sales and the related accounts receivable balances; partially offset by
- iv. \$2.0 million of settlement expense recorded in the three months ended April 30, 2007 related to the consumer class action suit for *Grand Theft Auto: San Andreas*.

General and administrative expenses for the three months ended April 30, 2008 and 2007 also includes occupancy expense (primarily rent, utilities and office expenses) of \$3.7 million and \$3.9 million, respectively, related to our development studios.

Research and development

Research and development expenses increased \$2.9 million for the three months ended April 30, 2008 as compared to the same period in 2007 primarily due to:

- i. a \$1.4 million increase in personnel expense, mainly for payroll related expenses in our European territories; and
- ii. a \$0.8 million increase in legal expense related to an accrual for an ongoing legal matter.

Business reorganization and related

Business reorganization and related expenses were \$0.9 million in the three months ended April 30, 2008, as compared to \$9.0 million in the three months ended April 30, 2007, a decrease of \$8.0 million. This decrease is primarily due to:

- i. \$5.2 million of severance expense for the termination of employment agreements with our former Chief Executive Officer and Chief Financial Officer in April 2007; and
- ii. \$3.8 million of professional fees related to the change in a majority of the members of our Board at our Annual Meeting and the subsequent replacement of prior management, \$2.0 million of which was investment banking fees incurred by prior management to consider the possibility of presenting alternative proposals to our stockholders, including a potential sale of the Company in March 2007; partially offset by
- iii. \$0.9 million of lease termination, relocation and employee termination costs incurred as a result of the consolidation of certain of our operations in the three months ended April 30, 2008.

We expect to incur additional reorganization expenses of approximately \$3.0 million through the remainder of fiscal 2008.

Provision for income taxes. For the three months ended April 30, 2008, income tax expense was \$4.1 million compared to income tax expense of \$1.5 million in the second quarter of 2007, an increase of \$2.6 million primarily attributable to earnings in foreign jurisdictions. Our effective tax rate differed from the federal, state and foreign statutory rates primarily due to the reversal and recording of valuation allowances in the respective periods. Accordingly, we decreased our valuation allowance by approximately \$24.5 million in

the three months ended April 30, 2008 and increased our valuation allowance by approximately \$18.9 million in the three months ended April 30, 2007.

We are regularly audited by domestic and foreign taxing authorities. Audits may result in tax assessments in excess of amounts claimed and the payment of additional taxes. We believe that our tax positions comply with applicable tax law, and that we have adequately provided for reasonably foreseeable tax assessments.

Net income (loss) and income (loss) per share. For the three months ended April 30, 2008, net income was \$98.2 million, compared to a net loss of \$51.2 million in the 2007 period. Net income per share for the three months ended April 30, 2008 was \$1.31 and \$1.29 for basic and diluted, respectively, compared to a net loss per share of \$0.71 for the three months ended April 30, 2007. Weighted average shares outstanding increased compared to the prior period, mainly due to an increase in the exercise of stock options as a result of a higher average stock price in the 2008 period and the issuance of 1,490,605 shares of restricted stock in connection with our acquisition of Illusion Softworks.

The increase in net revenue primarily reflects higher sales of titles from our *Grand Theft Auto* franchise primarily due to our release of *Grand Theft Auto IV* on April 29, 2008. Total revenue generated from our *Grand Theft Auto* titles was \$309.2 million higher in the 2008 period. In addition, *Carnival Games*, which was released in the fourth quarter of 2007, generated net revenue of \$30.8 million in the six months ended April 30, 2008. Partially offsetting the increase in net revenue were lower sales of peripherals of \$12.4 million in the 2008 period, reflecting our sale of the Joytech accessories business in the fourth quarter of 2007, and a decrease of \$10.3 million in sales of *Ghost Rider*, which was released in the second quarter of 2007.

Sales on current generation platforms accounted for approximately 80.7% of our total net publishing revenue in the 2008 period. Xbox 360 and PS3 software sales for the six months ended April 30, 2008 increased from the same period in 2007 by \$192.9 million and \$159.3 million, respectively, primarily due to the success of *Grand Theft Auto IV*. Wii software sales accounted for \$54.6 million of our net publishing revenue in the 2008 period, reflecting the strong sales of *Bully: Scholarship Edition* and *Carnival Games*. Sales on the prior generation platforms decreased by \$68.9 million or 53.6%, mainly reflecting decreased sales of *Grand Theft Auto: Vice City Stories*, *Bully*, and *Grand Theft Auto: San Andreas* in 2008. We expect sales on the prior generation platforms to continue to decline as a result of the ongoing hardware transition and have therefore reduced the number of titles in development for these platforms. We have reduced pricing on several of our software titles for the prior generation platforms as the current

generation hardware installed base grows. PSP sales decreased by \$21.1 million, primarily due to decreased sales of *Grand Theft Auto: Vice City Stories*. PC sales decreased by \$15.9 million, primarily due to decreased sales of *The Elder Scrolls IV: Oblivion* and *The Elder Scrolls IV: The Shivering Isles*, which were released in the second quarter of 2006 and 2007, respectively.

Gross profit as a percentage of net revenue increased significantly due to the release of *Grand Theft Auto IV* in the second quarter of 2008, as this title is internally developed and the intellectual property is wholly-owned. Product costs decreased as a percentage of net revenue, primarily due to manufacturing discounts we received related to the release of *Grand Theft Auto IV*. Internal royalties increased as a percentage of net revenue, reflecting increased sales of our *Grand Theft Auto* titles.

Excluding the impact of *Grand Theft Auto IV*, product costs decreased as a percentage of net revenue, mainly due to a \$5.2 million impairment charge recorded in the 2007 period related to intellectual property. Software development costs and royalties were higher as a percentage of net revenue as we accelerated approximately \$5.9 million of amortization on capitalized software and license costs as a result of lowered sales expectations of certain titles. License costs increased as a percentage of net revenue due to higher royalty expense related to our *Major League Baseball* license.

Revenue earned from licensing our intellectual property to third parties decreased to \$11.7 million in the six months ended April 30, 2008 from \$15.2 million in the 2007 period, primarily due to our January 2007 release of *Grand Theft Auto: San Andreas* for the PS2 in Japan, partially offset by our December 2007 release of *Grand Theft Auto: Vice City Stories* for the PS2 and PSP in Japan.

Revenue earned outside of North America accounted for approximately 29.0% of our net revenue in the six months ended April 30, 2008 compared to 24.8% in the 2007 period. This increase was primarily attributable to our simultaneous global release of *Grand Theft Auto IV* for the Xbox 360 and PS3. Foreign exchange rates increased revenue by approximately \$16.9 million in the six months ended April 30, 2008.

Distribution

(thousands of dollars)	2008	%	2007	%	Increase/ (decrease)	% Increase/ (decrease)
Net revenue	\$ 174,307	100.0%	\$ 166,857	100.0%	\$ 7,450	4.5%
Cost of goods sold	157,741	90.5%	152,259	91.3%	5,482	3.6%
Gross profit	\$ 16,566	9.5%	\$ 14,598	8.7%	\$ 1,968	13.5%

Net revenue associated with software on current generation platforms increased \$17.4 million and hardware sales increased \$11.0 million, reflecting increased availability of current generation platforms, especially the Wii, partially offset by lower sales of prior generation software of \$11.2 million, as consumers continued to shift their spending to current generation software. We experienced a decline in software sales for Nintendo handheld devices of \$9.8 million and peripherals of \$3.5 million. In addition, PC sales increased \$3.0 million. Foreign currency exchange rates increased net revenue by approximately \$6.1 million in the six months ended April 30, 2008, primarily as a result of a weakening U.S. dollar. Although hardware sales increased, we realized higher margins in 2008 primarily due to increased bundling of software with hardware.

Selling and marketing

Selling and marketing expenses increased \$16.5 million for the six months ended April 30, 2008 as compared to the same period in 2007 primarily due to:

- i. an increase in marketing expense of \$7.6 million, mainly for the releases of *Grand Theft Auto IV* and *Bully: Scholarship Edition* in the second quarter of 2008; and
- ii. a \$7.6 million increase in personnel costs, mainly resulting from higher severance and incentive compensation expense in our European territories.

General and administrative

General and administrative expenses were \$80.6 million in the six months ended April 30, 2008 as compared to \$79.1 million in the six months ended April 30, 2007, an increase of \$1.5 million. This increase was primarily due to:

- i. \$3.4 million of legal and investment banking expenses related to the Offer;
- ii. \$5.3 million of stock-based compensation expense related to the management agreement with ZelnickMedia;
- iii. a \$1.4 million increase in fees related to the Management Agreement with ZelnickMedia; and
- iv. an increase in bad debt expense of \$3.5 million as a result of our increase in sales and the related accounts receivable balances; partially offset by
- v. a decrease in personnel expenses of \$2.9 million in the six months ended April 30, 2008 compared to the six months ended April 30, 2007, due to a decrease in salaries and stock-based compensation, reflecting the results of our restructuring initiatives;
- vi. \$2.0 million of settlement expense recorded in the six months ended April 30, 2007 related to the consumer class action suit for *Grand Theft Auto: San Andreas*; and
- vii. a decrease of \$8.5 million in professional fees related to our stock option investigation and the New York Country District Attorney's subpoenas.

General and administrative expenses for the six months ended April 30, 2008 and 2007 also includes occupancy expense (primarily rent, utilities and office expenses) of \$7.2 million and \$7.6 million, respectively, related to our development studios.

Research and development

Research and development expenses increased \$4.6 million for the six months ended April 30, 2008 as compared to the same period in 2007 primarily due to:

- i. a \$1.9 million increase in personnel expense, mainly for payroll related expenses in our European territories; and
- ii. a \$1.8 million increase in legal expense related to an accrual for a wage and hourly dispute.

Business reorganization and related

Business reorganization and related expenses were \$1.1 million in the six months ended April 30, 2008, as compared to \$9.0 million in the six months ended April 30, 2007, a decrease of \$7.9 million. This decrease is primarily due to:

- i. \$5.2 million of severance expense for the termination of employment agreements with our former Chief Executive Officer and Chief Financial Officer in April 2007; and
- ii. \$3.8 million of professional fees related to the change in a majority of the members of our Board at our Annual Meeting and the subsequent replacement of prior management, \$2.0 million of which was investment banking fees incurred by prior management to consider the possibility of presenting alternative proposals to our stockholders, including a potential sale of the Company in March 2007; partially offset by
- iii. \$0.9 million of lease termination, relocation and employee termination costs incurred as a result of the consolidation of certain of our operations in the six months ended April 30, 2008.

We expect to incur additional reorganization expenses of approximately \$3.0 million through the remainder of fiscal 2008.

Provision for income taxes. For the six months ended April 30, 2008, income tax expense was \$8.8 million, primarily attributable to foreign jurisdictions, compared to income tax expense of \$2.6 million for the six months ended April 30, 2007. Our effective tax rate differed from the federal, state and foreign statutory rates primarily due to the reversal and recording of valuation allowances in the respective periods. Accordingly, we decreased our valuation allowance by approximately \$17.7 million in the six months ended April 30, 2008 and increased our valuation allowance by approximately \$25.3 million in the six months ended April 30, 2007.

We are regularly audited by domestic and foreign taxing authorities. Audits may result in tax assessments in excess of amounts claimed and the payment of additional taxes. We believe that our tax positions comply with applicable tax law, and that we have adequately provided for reasonably foreseeable tax assessments.

Net income (loss) and income (loss) per share. For the six months ended April 30, 2008, net income was \$60.2 million, compared to a net loss of \$72.8 million in the six months ended April 30, 2007. Net income per share for the six months ended April 30, 2008 was \$0.81 and \$0.80 for basic and diluted, respectively, compared to a net loss per share of \$1.02 for the six months ended April 30, 2007. Weighted average shares outstanding increased compared to the prior period, mainly due to more exercises of stock options as a result of a higher average stock price in the 2008 period and the issuance of 1,490,605 shares of restricted stock in connection with our acquisition of Illusion Softworks.

Liquidity and Capital Resources

Our primary cash requirements have been to fund (i) the development, manufacturing and marketing of our published products (ii) working capital (iii) acquisitions and (iv) capital expenditures. In addition, we expect to incur further cash obligations as part of our business reorganization initiatives. Historically, we have relied on funds provided by operating activities and short and long-term borrowings to satisfy our working capital needs.

In November 2007, we entered into an amended and restated credit agreement with Wells Fargo Foothill, Inc. (the "Amended Credit Agreement"), which increased the principal amount of our revolving credit facility from \$100.0 million to \$140.0 million. The Amended Credit Agreement restricts our ability to borrow based on certain accounts receivable and inventory levels, both domestically and internationally.

Amounts outstanding under the Amended Credit Agreement are secured by all of our assets and the equity of our subsidiaries based in the U.S. and U.K. In February 2008, we entered into a First Amendment to the Amended Credit Agreement (the "First Amendment"), pursuant to which the credit facility bears interest at a margin of (a) 2.00% to 2.50% above a certain base rate, or (b) 3.25% to 3.75% above the LIBOR Rate (minimum of 4.00% LIBOR Rate), which margins are subject to certain levels of liquidity. The Amended Credit Agreement contains customary covenants and fees for unused balances and matures on July 3, 2012. As of April 30, 2008, we had \$16.0 million outstanding and \$116.3 million available for borrowings under the Amended Credit Agreement.

The Amended Credit Agreement contains customary restrictions and remedies for events of default. The Amended Credit Agreement also contains a requirement that we maintain an interest coverage ratio of more than one to one for the trailing 12 month period, if the liquidity of our operations (including available borrowings under the Amended Credit Agreement) falls below \$30.0 million, based on a 30-day average.

Generally, we have been able to collect our accounts receivable in the ordinary course of business. We do not hold any collateral to secure payment from customers. Effective March 1, 2008, we have purchased trade credit insurance on the majority of our customers to mitigate accounts receivable risk.

We are subject to credit risks, particularly if any of our receivables represent a limited number of retailers or are concentrated in foreign markets. If we are unable to collect our accounts receivable as they become due, it could adversely affect our liquidity and working capital position and we would be required to increase our provision for doubtful accounts.

As of April 30, 2008 and October 31, 2007, amounts due from our five largest customers comprised approximately 57.3% and 54.4% of our gross accounts receivable balance, respectively, with our significant customers (those that individually comprised more than 10% of our gross accounts receivable balance) accounting for 48.0% and 41.9% of such balance at April 30, 2008 and October 31, 2007, respectively. We believe that the receivable balances from these largest customers do not represent a significant credit risk based on past collection experience.

We have entered into various agreements in the ordinary course of business that require substantial cash commitments over the next several years. Generally, these include:

- Agreements to acquire licenses to intellectual property such as trademarks, copyrights and technology for use in the publishing, marketing and distribution of our software titles. Our licensing and marketing commitments primarily reflect agreements with major sports leagues and players' associations and expire at various times through October 2012;
- Contractual advances and royalty payments to third party software developers that expire at various times through September 2010. Guaranteed minimum payments assume satisfactory performance;

- Operating leases, primarily related to occupancy, furniture and equipment, expiring at various times through June 2015; and
- Distribution agreements to purchase third party software games that require guaranteed minimum payments through October 2008.

A summary of annual minimum contractual obligations and commitments as of April 30, 2008 is as follows (in thousands of dollars):

Fiscal year ending October 31,	Licensing and Marketing	Software Development	Operating Leases	Distribution	Line of credit	Total
2008 (remaining six months)	\$ 44,737	\$ 40,996	\$ 8,556	\$ 1,452	\$ —	\$ 95,741
2009	64,029	22,074	16,632	—	—	102,735
2010	57,165	4,400	14,684	—	—	76,249
2011	52,181	—	13,292	—	—	65,473
2012	51,008	—	11,377	—	16,000	78,385
Thereafter	—	—	13,273	—	—	13,273
Total	\$ 269,120	\$ 67,470	\$ 77,814	\$ 1,452	\$ 16,000	\$ 431,856

In addition to the cash commitments above, we have also entered into acquisition agreements that contain provisions for contingent cash consideration subject to certain acquired companies achieving agreed upon financial or unit sales goals or performance conditions. The amount and timing of these payments are currently not fixed or determinable.

On November 1, 2007, we adopted FIN 48 and reclassified \$28.4 million of gross unrecognized tax benefits to non-current income taxes payable in our condensed consolidated balance sheet. As of April 30, 2008, we cannot make a reasonably reliable estimate of the period in which these liabilities will be settled with the respective tax authorities, although we believe it is reasonably possible that certain of these liabilities could be settled during fiscal 2008 (see Note 11 of the Notes to Unaudited Condensed Consolidated Financial Statements included elsewhere in this Quarterly Report on Form 10-Q for additional information).

We believe that our current cash and cash equivalents and projected cash flow from operations, along with availability under our Amended Credit Agreement, will provide us with sufficient liquidity to satisfy our cash requirements for working capital, capital expenditures and commitments through at least the next 12 months. In addition, we believe that we have the ability, if necessary, to implement further restructuring activities that would substantially reduce personnel and personnel-related costs, reduce capital expenditures, reduce research and development expenditures and/or reduce selling and marketing expenditures. We also believe that we have the ability to obtain additional financing, if necessary.

Our changes in cash and cash equivalents are as follows:

(thousands of dollars)	Six months ended April 30,	
	2008	2007
Cash used for operating activities	\$ (13,724)	\$ (14,040)
Cash used for investing activities	(9,035)	(14,072)
Cash provided by financing activities	17,532	802
Effects of exchange rates on cash and cash equivalents	388	3,346
Net decrease in cash and cash equivalents	\$ (4,839)	\$ (23,964)

At April 30, 2008, cash and cash equivalents were \$72.9 million as compared to \$77.8 million at October 31, 2007, a decrease of \$4.8 million.

Cash used for operating activities remained relatively unchanged for the six months ended April 30, 2008 and 2007. The increase in net income and non-cash expenses were offset by an increase in accounts receivable, reflecting sales generated from the release of *Grand Theft Auto IV* at the end of the quarter, for which we have not yet collected a significant portion of the cash from our customers. An increase in software development costs and licenses reduced cash flow from operating activities as we continue to develop major releases such as *Midnight Club: Los Angeles* and *L.A. Noire*. Partially offsetting the decrease in cash was 1) increased levels of accounts payable and accrued expenses due to the timing of cash payments and 2) the receipt of \$19.5 million of previously paid income taxes in the 2008 period.

Cash used for investing activities includes cash paid to purchase fixed assets as well as payments made to acquire certain businesses. The decrease in cash used for investing activities from \$14.1 million for the six months ended April 30, 2007 to \$9.0 million for the six months ended April 30, 2008 is primarily due to:

- i. our investment in programming and development equipment, high-definition monitors and leasehold improvements at certain of our studios in 2007 as compared to the purchase of lower dollar value computer equipment in 2008; partially offset by
- ii. cash payments totaling \$4.0 million in the six months ended April 30, 2008 in connection with our acquisitions of Mad Doc Software and Illusion Softworks.

In January 2008, we issued 1,490,605 shares of restricted stock valued at \$27.7 million in connection with our acquisition of Illusion Softworks.

Cash provided by financing activities increased from \$0.8 million for the six months ended April 30, 2007 to \$17.5 million for the six months ended April 30, 2008 primarily due to:

- i. an increase in the exercise of stock options in 2008 as compared to the same period in 2007 as a result of higher average stock prices in 2008 and trading restrictions imposed during 2007 due to our stock option investigation; partially offset by
- ii. net cash payments on our line of credit of \$2.0 million; and
- iii. \$1.0 million of cash paid in the six months ended April 30, 2008 for debt issuance costs in connection with our Amended Credit Agreement.

Fluctuations in Quarterly Operating Results and Seasonality

We have experienced fluctuations in quarterly operating results as a result of the timing of the introduction of new titles; variations in sales of titles developed for particular platforms; market acceptance of our titles; development and promotional expenses relating to the introduction of new titles; sequels or enhancements of existing titles; projected and actual changes in platforms; the timing and success of title introductions by our competitors; product returns; changes in pricing policies by us and our competitors; the accuracy of retailers' forecasts of consumer demand; the size and timing of acquisitions; the timing of orders from major customers; and order cancellations and delays in product shipment. Sales of our titles are also seasonal, with peak shipments typically occurring in the fourth calendar quarter (our fourth and first fiscal quarters) as a result of increased demand for titles during the holiday season. Quarterly comparisons of operating results are not necessarily indicative of future operating results.

International Operations

Net revenue earned outside of the United States is principally generated by our operations in Europe, Canada, Australia and Asia. For the six months ended April 30, 2008 and 2007, approximately 34.9% and 30.5%, respectively, of our net revenue was earned outside of the United States. We are subject to risks inherent in foreign trade, including increased credit risks, tariffs and duties, fluctuations in foreign currency exchange rates, shipping delays and international political, regulatory and economic developments, all of which can have a significant impact on our operating results.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

We are subject to market risks in the ordinary course of our business, primarily risks associated with interest rate and foreign currency fluctuations.

Historically, fluctuations in interest rates have not had a significant impact on our operating results. We had an outstanding loan balance of \$16.0 million under our Amended Credit Agreement as of April 30, 2008. As of April 30, 2008, we had \$7.1 million of letters of credit outstanding. Under the Amended Credit Agreement, the outstanding balance bears interest at our election of (a) 2.00% to 2.50% above a certain base rate (7.50% at April 30, 2008), or (b) 3.25% to 3.75% above the LIBOR rate with a minimum 4.00% LIBOR Rate (7.75% at April 30, 2008), with the margin rate subject to the achievement of certain average liquidity levels. Changes in market rates may impact our future interest expense. For instance, if the LIBOR rate were to increase or decrease one percentage point (1.0%), our expected annual interest expense would change by approximately \$0.2 million based on our outstanding balance as of April 30, 2008.

We transact business in foreign currencies and are exposed to risks resulting from fluctuations in foreign currency exchange rates. Accounts relating to foreign operations are translated into United States dollars using prevailing exchange rates at the relevant quarter end. Translation adjustments are included as a separate component of stockholders' equity. For the six months ended April 30, 2008, our foreign currency translation adjustment loss was approximately \$0.5 million. The foreign exchange transaction gain recognized in our statement of operations for the six months ended April 30, 2008 was \$0.6 million.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Based on an evaluation under the supervision and with the participation of management, our principal executive officer and principal financial officer have concluded that our disclosure controls and procedures as defined in rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended ("Exchange Act") were effective as of the end of the period covered by this report to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is (i) recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission rules and forms and (ii) accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting during the second quarter of 2008, which were identified in connection with management's evaluation required by paragraph (d) of Rules 13a-15 and 15d-15 under the Exchange Act, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Item 1. Legal Proceedings

Except as noted below, there were no new material legal proceedings or material developments to the pending legal proceedings that have been previously reported in Part I, Item 3 of our Annual Report on Form 10-K for the fiscal year ended October 31, 2007. A full discussion of our pending legal proceedings is also contained in Part I, Item 1, "Notes to Unaudited Condensed Consolidated Financial Statements" of this Report.

Stockholder Action. On March 7, 2008, Patrick Solomon, a stockholder of the Company, filed a purported class action complaint in the Court of Chancery of the State of Delaware against us and certain of our officers and directors. The plaintiff contends that the defendants breached their fiduciary duties by, among other things, allegedly refusing to explore premium offers by Electronic Arts Inc. to acquire all of the Company's shares, enacting a bylaw amendment allegedly designed to entrench the current board by preventing stockholders from nominating and electing alternative directors, agreeing to an amendment to a management agreement with ZelnickMedia and issuing a proxy statement for the 2008 Annual Meeting that allegedly contained misleading and incomplete information. The complaint seeks preliminary and permanent injunctive relief, rescissory and other equitable relief and damages. We believe the claims lack merit, and intend to defend vigorously against them.

On April 1, 2008, St. Clair Shores General Employees Retirement System, a stockholder, filed a purported derivative action on behalf of the Company in the Delaware Court of Chancery against certain of our directors and ZelnickMedia. The allegations are essentially the same as those in the Solomon stockholder action, above, with an additional complaint about the "poison pill" adopted by our Board in March 2008, and an additional claim against ZelnickMedia for aiding and abetting the directors' alleged breach of fiduciary duty. Because the action was duplicative, the plaintiff agreed to stay all proceedings in the case in favor of the Solomon case. We believe the claims lack merit, and intend to defend vigorously against them.

On April 11, 2008, Michael Maulano, an alleged stockholder, filed a purported class action in New York state court, New York County, against us and certain of our directors. The allegations are essentially the same as those in the Solomon case, above, with an additional complaint about the "poison pill" adopted by our Board in March 2008. Because the action was duplicative, the plaintiff agreed to stay all proceedings in the case in favor of the Solomon case. We believe the claims lack merit, and intend to defend vigorously against them.

Item 1A. Risk Factors

There have been no material changes to the Risk Factors disclosed in Item 1A of our Annual Report on Form 10-K for the fiscal year ended October 31, 2007 other than the following.

The tender offer by Electronic Arts Inc. may create a distraction for our management and uncertainty that may adversely affect our business.

On March 13, 2008, Electronic Arts, Inc. ("EA"), launched a tender offer to acquire the outstanding shares of the Company's Common Stock for \$26.00 per share (the "Offer"). On March 26, 2008, our Board of Directors, with the assistance of our financial and legal advisors, unanimously determined that the Offer was inadequate and recommended that the Company's stockholders reject the Offer. On April 18, 2008, EA announced a second extension of the Offer to May 16, 2008 and reduced the price per share to \$25.74. On May 19, 2008, EA announced a third extension of the Offer to June 16, 2008 at the same price per share of \$25.74. For the three and six months ended April 30, 2008, we recorded approximately \$3,355 in expenses related to the Offer.

The review and consideration of EA's unsolicited Offer (and any alternate proposals that may be made by other parties) have become and may continue to be a significant distraction for our management and

employees and has required, and may continue to require, the expenditure of significant time and resources by us. EA's unsolicited Offer has also created uncertainty for our employees and this uncertainty has adversely affected and may continue to adversely affect our ability to retain key employees and to hire new talent. EA's unsolicited Offer has created and may continue to create uncertainty for current and potential publishers, developers, distributors and other business partners, which may cause them to terminate, or not to renew or enter into, arrangements with us. Finally, stockholder litigation in connection with EA's unsolicited Offer has resulted and may continue to result in significant costs of defense, indemnification and liability. These consequences, alone or in combination, may harm our business and have a material adverse effect on our results of operations.

Our stock price has been volatile and may continue to fluctuate significantly.

The market price of our common stock historically has been, and we expect will continue to be, subject to significant fluctuations. These fluctuations may be due to factors specific to us (including those discussed in the risk factors above and in our Annual Report on Form 10-K for the fiscal year ended October 31, 2007, as well as others not currently known to us or that we currently do not believe are material), to changes in securities analysts' earnings estimates or ratings, to our results or future financial guidance falling below our expectations and analysts' and investors' expectations, to factors affecting the computer, software, entertainment, media or electronics industries, or to national or international economic conditions.

We further believe that, as a result of EA's unsolicited Offer, and speculation concerning a potential acquisition, the future trading price of our common stock is likely to be volatile and could be subject to wide price fluctuations. There can be no assurance whether a transaction will occur or at what price. If a transaction does not occur, or the market perceives a transaction as unlikely to happen, our stock price may decline significantly, rapidly and without notice.

Litigation directly or indirectly resulting from EA's unsolicited Offer and/or our review of strategic alternatives may negatively impact our business, results of operations and financial condition.

Stockholder lawsuits have been filed against us in the Court of Chancery of the State of Delaware and New York state court contending that our directors breached their fiduciary duties by, among other things, allegedly refusing to explore premium offers by EA to acquire all of the Company's shares, enacting a bylaw amendment allegedly designed to entrench the current board by preventing stockholders from nominating and electing alternative directors, agreeing to an amendment to a management agreement with ZelnickMedia, issuing a proxy statement for the 2008 Annual Meeting that allegedly contained misleading and incomplete information and adopting a "poison pill". Other lawsuits may continue to be filed against us and our directors with similar or additional allegations relating to our 2008 annual meeting of stockholders and the proxy materials filed with the SEC and mailed to stockholders in connection therewith, the amendment to the ZelnickMedia management agreement, EA's unsolicited Offer, our adoption of a "poison pill", our review of strategic alternatives or other recent events. Such claims and any resultant litigation could subject us to liability. Even if we prevail, such litigation could be time consuming and expensive to defend, and could result in the diversion of our time and attention, any of which could materially and adversely affect our business, results of operations and financial condition. Moreover, there can be no assurance as to the reaction of our employees, stockholders, publishers, developers, distributors, licensors and other business partners to the institution or ultimate resolution of any such proceedings.

We face risks from our international operations.

We are subject to certain risks because of our international operations, particularly as we seek to grow our business and presence outside of the United States. Changes to and compliance with a variety of foreign laws and regulations that may increase our cost of doing business and our inability or failure to obtain required approvals could harm our international and domestic sales. Trade legislation in either the United States or other countries, such as a change in the current tariff structures, import/export compliance laws

or other trade laws or policies, could adversely affect our ability to sell or to distribute in international markets. Furthermore, local laws and customs in many countries differ significantly from those in the United States. We incur additional legal compliance costs associated with our international operations and could become subject to legal penalties in foreign countries if we do not comply with local laws and regulations which may be substantially different from those in the United States. In many foreign countries, particularly in those with developing economies, it may be common to engage in business practices that are prohibited by United States laws and regulations applicable to us such as the Foreign Corrupt Practices Act and by local laws applicable to us such as laws prohibiting corrupt payments to government officials. Although we implement policies and procedures designed to ensure compliance with these laws, there can be no assurance that all of our employees, contractors and agents, as well as those companies to which we outsource certain of our business operations, including those based in or from countries where practices which violate such laws may be customary, will not take actions in violation of our policies. Any such violation, even if prohibited by our policies, could have a material adverse effect on our business.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

In March 2008, we issued 53,033 shares of our common stock in connection with our acquisition of substantially all of the assets of Mad Doc Software LLC. The issuance of these shares was exempt from registration under Section 4(2) of the Securities Act of 1933, as amended, or Regulation D promulgated thereunder as transactions by an issuer not involving a public offering. The shares of common stock issued in connection with such acquisition are subject to certain restrictions and cancellation for a period of two years as set forth in a lock-up agreement executed by Mad Doc Software, its principal member and us.

Item 4. Submission of Matters to a Vote of Security Holders

The Company's Annual Meeting of Stockholders was held on Thursday, April 17, 2008, in New York, New York, at which the following matters were submitted to a vote for the stockholders:

- (a) Votes regarding the election of the persons named below as Directors for a term expiring in 2009 were as follows:

CERTIFICATION OF CHIEF EXECUTIVE OFFICER
Section 302 Certification

I, Ben Feder, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q for the quarterly period ended April 30, 2008 of Take-Two Interactive Software, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statement for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and;
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and;
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
